Minneapolis, MN – June 17, 2013

Tactile Systems Technology, Inc. has been named for the fourth consecutive year, one of the Top 100 Workplaces in Minnesota based on an employee-based survey project from the Star Tribune. The Star Tribune Top Workplaces special section was published in the Star Tribune on Sunday, June 16.

Produced by the same team that compiles the 22-year-old Star Tribune 100 report of the best-performing public companies in Minnesota, Top Workplaces recognizes the most progressive companies in Minnesota based on employee opinions about organizational health, job expectations and employee engagement. The analysis included responses from over 64,300 employees at Minnesota public, private and nonprofit organizations.

The rankings in the Star Tribune Top 100 Workplaces are based on survey information collected by WorkplaceDynamics, an independent company specializing in employee engagement and retention.

Tactile Systems Technology, Inc. was ranked #35 on the small company list.

Star Tribune Publisher Michael J. Klingensmith said, "The companies in the Star Tribune Top 100 Workplaces deserve high praise for creating the very best work environments in the state of Minnesota. My congratulations to each of these exceptional companies."

To qualify for the Star Tribune Top Workplaces, a company must have more than 50 employees in Minnesota. Nearly 1,900 companies were invited to participate. Rankings were composite scores calculated purely on the basis of employee responses.
