Explanation of Responses:

1. Each share of Series B Preferred Stock is convertible at any time at the option of the holder, and will convert automatically into shares of the Issuer's Common Stock on a one-for-one basis in connection with the closing of the Issuer's initial public offering. In addition, the holder is entitled to receive additional shares of common stock equal to the original purchase price per share (\$3.8048) divided by the price to the public of the shares of common stock issued in the Issuer's initial public offering and these shares accrue a dividend that is payable-in-kind in shares of the Issuer's common stock.
2. The securities do not have an expiration date. The securities convert automatically into shares of the Issuer's Common Stock on a one-for-one basis in connection with the closing of the Issuer's initial public offering.
